

BUILDING INSPECTIONS

PLUMBING AND ELECTRICAL PERMITS:

Plumbing and electrical permits are issued by the state of Colorado. All plumbing and electrical installation, new construction, remodels, and additions, must be installed and inspected in accordance with state law. Plumbing and electrical permits are required before commencing work.

A resident owning their own property and residing on that property may apply for a homeowners's permit, and do their own plumbing and electrical work, if qualified. Otherwise all work must be performed by a plumbing or electrical contractor using state licensed personnel.

The electrical and plumbing permit fees are listed on the state's application forms, which are available on the internet. For further information or assistance, please call the local inspector's office at the Fremont County Administration Building, 615 Macon Avenue, Canon City, CO 81212.

For Electrical Inspections Call: 877-305-7541 State Electrical Inspector

For Plumbing Inspections Call: 877-303-6611 State Plumbing Inspector
